

# ENGAGE FOR CHANGE

## COMMUNITY TALK SERIES

Join us for an upcoming series of free talks presented by local subject-matter experts on the topic of emission reduction in Launceston. Light refreshments provided.

15 February 2024 | 6 - 7PM

### **Climate Change in the Tasmanian Context**

*Unpacking Launceston's emissions and the climate change projections for Tasmania, and what this means locally for our community.*

22 February 2024 | 6 - 7PM

### **Electric Vehicles and Sustainable Transport in Tasmania**

*Discussing the opportunities and challenges of electric vehicles, the implications for public health and the boarder sustainable transport needs of Tasmania.*

29 February 2024 | 6 - 7PM

### **Waste and Circularity in Tasmania**

*How is Tasmania tracking towards becoming 'a place where nothing is wasted'?*

7 March 2024 | 6 - 7PM

### **Investing in a Sustainable Future**

*Discussing how business and individuals can support sustainable outcomes and a low carbon future through procurement and di/investment.*

14 March 2024 | 6 - 7PM

### **Getting off Gas**

*Discussion about options for transitioning away from gas in our homes and businesses, for our health and the environment.*

21 March 2024 | 6 - 7PM

### **Climate Change, Health and Disaster Management**

*How the impacts of climate change will continue to affect our health and what the City of Launceston is doing to prepare and support our community.*

 **MACQUARIE HOUSE, CIVIC SQUARE**

**Register now** for one or more of these free talks to learn more about emission reduction in Launceston.
